

Why Modular? Why **National Partitions**?

National Partitions' Modular Buildings are the way today's most innovative companies prepare for an ever-changing future. Thanks to the flexibility, higher performance and innovative features of modular construction, our customers can respond quickly to market changes while maintaining the integrity of their construction investment. Compared to traditional stud and drywall construction, National Partitions' modular building benefits include:

- Greater durability and superior fire protection
- Shorter construction time and fewer facility interruptions
- Cleaner construction and maintenance
- Higher engineered performance tolerances
- Flexible, reusable materials
- Major cost savings including significant tax benefits
- Superior sound deadening capabilities customizable to fit your specific needs

All of these advantages will save your company time and money just as quickly as our modular buildings are installed. But even more significant benefits are realized over time as your company takes advantage of the increased productivity, flexibility, durability and bottom-line rewards National Partitions' modular construction provides.

The Modular Building Authority.

INNOVATIVE DESIGNS | ENDLESS APPLICATIONS

In-Plant Office

Separate office activities from manufacturing or warehouse areas. Systems are available in many standard sizes and configurations and can be shipped and set up in just a few days.

HiWall

Divides plant areas quickly and economically. The wall panels can be customized for double or overhead doors, lift out wall sections, header cutouts, pass-thru and special window openings.

Two Story

Doubles your space while cutting floor cost in half. Allows a clear view of plant work areas. Custom configuration built to any size.

Mezzanine

An affordable and practical solution to increasing the usable area of any floor space. Ideal for storage, assembly processes, support conveyors, catwalk structures, and offices.

Vision Tower

Clear wide spans allow open space below for working areas. Maximizes the use of expensive floor space. Installs quickly, moves easily.

Guard Building

Improves security on manufacturing facilities, campuses, military bases, at airports, and commercial businesses. Can be moved easily with a forklift.

Moduplex

Designs accommodate small to multi-office complexes of several thousand square feet. Storage roofs utilize overhead space. The System's flexibility and reusability allows future reconfiguration of office space.

Partitions

Maximize the use of floor space. The sound conditioned wall system is quickly installed and easily reconfigured, ensuring the highest level of convenience and efficiency.
